Cable Management Systems & Solutions

# That's why Eurostrut

Eurostrut produces and sells **cable support and strut mounting systems** for use in demanding environments. We supply installation companies and other technically oriented companies. Our products are used in markets such as offshore, chemicals, petrochemicals, heavy industry, energy and combined heat and power plants. With more than 20 years of knowledge and experience, we are happy to advise you on the most suitable solution for your project.

Customized solutions:  
more than **20 YEARS**  
experience

With more than 20 years of knowledge and experience, Eurostrut is a household name in the market. Did you run into problems and do you need tailor-made advice? No problem. We offer a custom solution for every challenge.

Small-scale  
and **INVOLVED**

As an independent organization we have a small team of committed employees who are always ready to assist you. We take our pride in quick responses through the phone or email. You can easily place your orders by phone, email or via our website.

Fast delivery with  
**OWN TRANSPORT SERVICE**

Did you need something urgently? That's not a problem. With our own transport service we deliver your orders quickly and efficiently to any location. We can offer same day delivery, just give us a call to discuss the possibilities.

High quality  
**OWN BRAND**

All our products meet the highest requirements and are subjected to an extensive inspection upon arrival at our warehouse in Schiedam (NL). Where necessary, products are adjusted and finished to meet our requirements. Products from our own product line are also hot-dip galvanized to a very high degree. Depending on product type, 80 to 160 m.

Competitive  
**PRICING**

At Eurostrut we supply and produce the best quality cable support systems and solutions at the most competitive prices. With our own brand you get high quality at low cost. We also supply other brands at sharp prices. Request a quotation today!

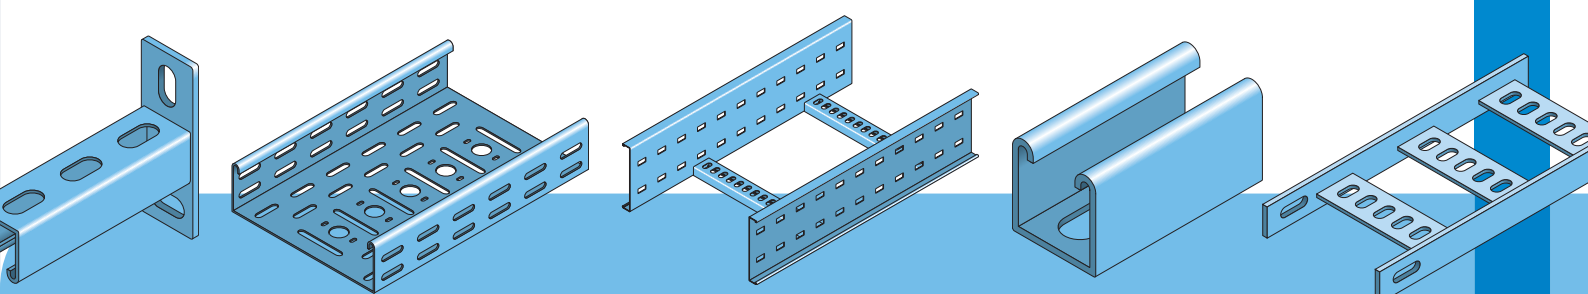

Your total supplier with  
**A LARGE STOCK**

We are a total supplier of cable support systems and solutions. We offer a very complete range, from complete installations to loose mounting materials. With a large stock in our warehouse in Schiedam (NL), we can meet every need.

# High quality solutions for your industry

Eurostrut supplies high-load cable support systems in various markets such as **industry, chemicals, energy, infrastructure, utility construction, maritime and offshore**. Every market, every segment, every customer has wishes and challenges when it comes to the transit of energy and data. From large spans and cable weights to large temperature differences and moisture. Eurostrut has a suitable solution for every need and situation.

## 2ba

### The convenience of 2ba

For installation companies and other technically oriented companies, product, price and stock information must always be available quick in order to operate efficiently. 2BA's data pool offers the solution. Eurostrut's products are stored with all associated information in 2BA's central article database.

The main advantages of 2BA:

- Design, calculate and order more efficient because all product and price information comes from the same source.
- Data is available via the leading ERP software packages or your own custom system.
- You have your own net purchase prices based on Eurostrut's agreed purchasing conditions.

### ISO 9001

Quality management is reflected in all processes within Eurostrut. This ensures that our products and services meet the needs, requirements, wishes and specifications of our customers and other stakeholders.

Ensuring continuous improvement of quality is very important for ourselves and our clients.
