

Assembly Accessories Bonding Connector

Description

Brass terminal for the equipotential bonding of the Rejiband® trays or for connection to the protective conductor and earthing of the electrical installation.

Advantages

Ensures the equipotentiality of the continuous sections of Rejiband®.

It facilitates the earthing of the Rejiband® tray.

Economical and reliable design.

Select the reference according to the size of the conductor.

Applications

It is used for the equipotential connection of the Rejiband® trays or for their connection to the protective conductor and earthing of the electrical installation.
