## Rejiband Joints

**Fast Clip** 

### Description

Metal joining piece with quick connection Click system for creating bends with Rejiband trays. The Rejiband clip attaches to the trays without screws. It is placed in the inside of the bend and joins the sections without the need of any specific tools for its assembly and installation. Made of steel, it is supplied in various Protectior Systems.

### Advantages

Fixing by quick click system.

Quick installation without the need for screws or fastenings.

80% saving in installation time.

It facilitates the fast creation and assembly of bends in the trays.

Suitable for all sizes of trays and available in a wide variety of protection systems.

### Applications

It is used for creating bends in Rejiband trays. It facilitates the installation of Rejiband wire mesh trays in cable management installations.
