Description

Metal divider with click system for separating different types of wiring in Rejiband® and Pemsaband® trays and Megaband® ladder. Available in various heights and Protection Systems. It allows the screening between data and power cables within the same installation.

Advantages

Significant savings in installation time when used in wire mesh trays, thanks to a faster assembly with the Click system.

Encourages shielding between data and power cables within the same installation.

Suitable for all Pemsa cable tray ranges.

Wide adaptability and adjustment thanks to the three heights: 25 mm, 50 mm and 80 mm.

Available in various protection systems: PG, GC, BK8, AZ+ and stainless steel AISI 304 and AISI 316L.

Applications

Suitable to create adequate cable separation to improve and correct electromagnetic compatibility in installations of Rejiband®, Pemsaband® tray and Megaband® ladder in indoor installations in a dry atmosphere without contaminants, outdoor, industrial, marine, rural or aggressive indoor installations, environments involving sea water and industrial applications.
