SHKW-30

Mounting Bracket Cable Protection Tube 30mm

The SHKW-30-FT is a solid pipe clamp for suspending or mounting cable protection tubes with a diameter of 30 mm. It is designed for secure installation on ceilings or structural supports.

Technical specifications

Application:	Mounting cable protection tubes to a flat surface or structural supports
For tube diameter:	30 mm
Compatible with:	SR-30 and SRL-30 cable protection tubes
Wall thickness:	3 mm
Includes:	SRBS U-bolt set and 2x fastening sets (nut, bolt, and washer)
Mounting:	Fixing to ceiling or structural support via screw holes
Weight:	0.49–0.50 kg/unit

Available variants

Hot-dip galvanized steel (FT)

For standard industrial applications

Material:	Cold-rolled structural steel S235JRG
Finish:	Hot-dip galvanized according to NEN-EN-ISO 1461 (min. 45 µm)
Layer:	60 - 80 µm

Stainless steel 304 (ER2)

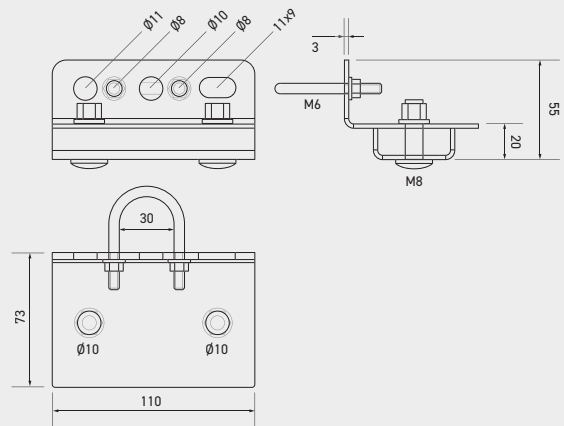

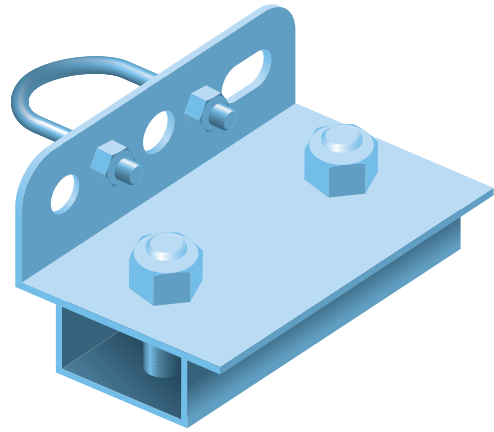

For enhanced corrosion resistance

Material:	Stainless steel 304 (ER2)
Finish:	Pickled and passivated

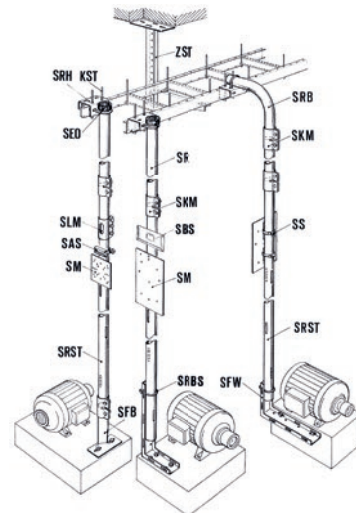

Stainless steel 316L (ER4)

For highly corrosive environments

Material:	Stainless steel 316L (1.4404)
Finish:	Pickled and passivated

Toepassing

Article number	kg/unit
SHKW-30-FT	0.50
SHKW-30-ER2	0.49
SHKW-30-ER4	0.49
